

Our Vision

At the Mount Gambier Children's Centre our work with children and families is focussed and meaningful. Our vision is to work in an environment where children and families are respected and valued. Our Centre is a place where all people have a voice and sense of belonging.

Our Centre is welcoming, inspiring and responsive to change. We grow networks which weave us into the community. Our Centre is dedicated to finding joy and meaning in our work and relationships with others.

Our Centre has a commitment to work collaboratively and co-operatively in partnership with all stakeholders to support and build strong families and communities.
